

REGARDING UNIVERSITY EDUCATION FOR RATSAMEE ROIPROMMA - AUM

PERSONAL STATEMENT

Hello, my name is Ratsamee Roiprommam, my nickname is Aum. I am 18 years old and are now studying in Matthayom 6, Muang Thalang School. This year is the last year of a teenager's life and next up is University, which is a life that requires serious study.

I am my mother's only child and I was born in Khon Kaen. My cousin Team has also lived at Happy Child Home, she is now in her third year of university. When Team moved to Happy Child she send me pictures of all her new friends and of the sea and it made me want to move there to. I moved to Happy Child Home when I was 10 years old.

When I was a little child me and my mother moved from Khon Khen to Maha Sarakham province. Life at home was not very good because my mother had to work hard to be able to pay for school. Every day after school I had to go home to my mothers friend and her daughter as my mother had to work long days.

When I was 9 years old i moved back to Khon Khen to live with older relatives. The village was full of children that I sometimes could play with but most of the time I had to play alone at home as my house was far from the village. I did not feel lonely as I lived with my older relatives. Therefore, I tend to get along better with adults than children.

I lived in Khon Khen for one year and then I got to move to Happy Child Home and I got to see the sea for the first time, I was very excited to see the water with waves. I have many friends at Happy Child Home, my closest friend is Ploy, we are the same age and next year she's going to university too. Everyone here at Happy Child Home is kind to me and we live like a family and I have been able to go to a good school to study. This is like a warm home.

My favorite thing to do is draw. I'm not very good at drawing but people around me always compliment me. I want to apply to study Communication Arts with focus on design, photo and working with photos. I also want to apply to study psychology as I am interested in guiding and helping others. I feel that using my ability or body is what I am good at. And I hope that my dream will come true this time.

INFORMATION REGARDING SPONSORING A SCHOLARSHIP FOR UNIVERSITY

1. As a sponsor you decide for how much money you can commit per year
2. As a sponsor you have to commit for all years of study required for the education
3. You can choose to pay per year or monthly payments
4. The money is paid to Barnhem but belongs to the student
5. Barnhem will be the guarantor that the money is used correctly
6. The student will sign for a monthly payment to cover costs for food and accommodation.
7. As a sponsor you will get a monthly economic update on the spending with copies of receipts.
8. We will start a closed Facebook group to make sure that the student and the sponsor can stay in direct contact. Members of that group will be sponsors, the student, Khun Yanenee Saisrikoson, Susanne Janson and Hans Forssell
9. The student will have to pass all exams for the scholarship to continue from one year to the next
